## **Biodigesters™**

A revolutionary new product comprised of beneficial bacteria and enzymes that cleans your pipes naturally. The safe effective way to maintain your plumbing without chemicals

## End Your Clogged Drain Problems Today!

Clogged drains are caused by the buildup of organic contaminants – grease, oils, body lotions, personal care products, etc. They attach to the interior of your pipes building up over time reducing the inside diameter of the pipe until it becomes completely clogged. Chemical treatment may clear up these symptoms temporarily, but chemicals propose a number of potential health and environmental risks, and they won't solve the ongoing problem of buildup. Biodigesters drain and septic cleaner will keep them clean by attaching to the pipe surfaces consuming the contaminants.

**Biodigesters™ Drain and Septic Cleaner is the powerful, all-natural solution for free running drains and septic systems.**

Containing beneficial bacteria and enzymes to specifically degrade organic and consume contaminants, Biodigesters™ Drain and Septic Cleaner keeps on working eating away harmful buildup in your plumbing. Biodigesters™ are safe for people and pets, and contains no harsh chemicals.

Home owners can now spend less time, money, and hassle keeping their drains clean and clear. Biodigesters™ Drain and Septic Cleaner packs the power of nature into every jar, septic tank drain lines are eaten clean improving their efficiency. Simply compare the benefits to other drain cleaners and you'll see why Biodigesters™ Drain and Septic Cleaner is the best value overall

### Application and Dosing Rates

Clearing Drains: 1 Tbs. each day until clear	Septic Tanks: 10 Tbs. seed dose (to start)
---	---

Maintenance: 1 tsp. in each drain per month	Maintenance: 5 Tbs. per month
--	----------------------------------

You simply mix the product into warm (not hot) water and pour it down the drain. For septic tanks add the product any drain or toilet.
